# Think<sup>the</sup> unthinkable

Finance the car that fires  
your imagination whether  
it's new or used, through  
Solutions or hire purchase.

## SOLUTIONS Beyond expectations

Solutions from SEAT Finance may blow your expectations, because our personal contract plan could give you a higher specification car than hire purchase for the same repayment.

There's more: you can pay a smaller deposit (as little as one repayment) and defer a proportion of the car value until the end of the agreement.

Solutions puts you in the driving seat. Unlike a fixed term loan it's flexible and you don't have to think about fluctuating interest rates. We work to your preferred budget and let you set your own repayment period, anything from eighteen months to three and a half years.

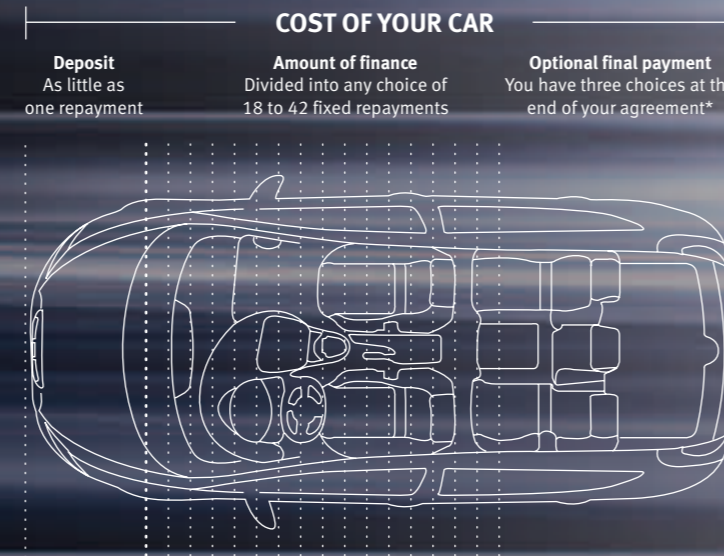

So, whether you want to drive the latest model or upgrade as your circumstances improve, SEAT Finance could take your money further.

### How Solutions works

- Agree a repayment period and estimate your annual mileage
- Set a deferred amount to the end of the agreement (the optional final payment) to make your repayments lower
- Pay a deposit made up of part-exchange or cash – as little as one repayment
- At the end of your agreement you have three choices\*:
  - Pay off the optional final payment so you own the car
  - Return the car to us and pay nothing more (subject to terms and conditions)
  - Part-exchange the car for a brand new SEAT on a new Solutions contract

### How you benefit

- Regularly upgrade to a higher specification SEAT
- Change your car according to trends and needs
- Reduce your repayments
- Pay a smaller deposit

## HIRE PURCHASE In your own time

Hire purchase is the road to ownership, whether you're buying a new or used SEAT. Easy and affordable, you simply agree the term and set the repayments so when the very last repayment has been made the car becomes yours.

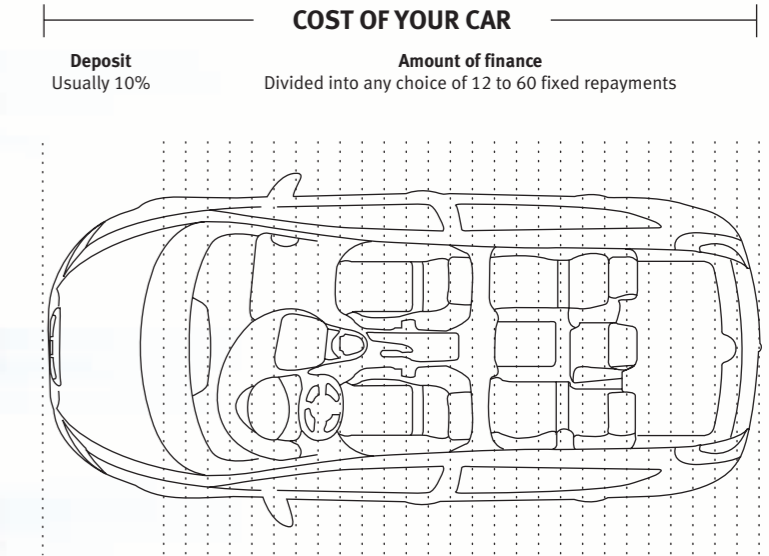

With just a ten per cent deposit, we'll organise your fixed repayments on an individually tailored plan, spread equally over twelve months to five years. You can relax knowing you're in control as you budget your way to buying your SEAT.

### How hire purchase works

- Choose the SEAT and repayment period that's right for you
- Agree a repayment to suit your budget
- Pay an initial deposit to start your agreement
- The balance is divided equally over the term and after the final repayment you own your SEAT\*

### How you benefit

- Own your SEAT within your budget
- Choose from longer repayment periods – up to five years

\* Subject to payment of the option to purchase fee.  
An offer of finance depends on certain conditions.  
Subject to status. Indemnities may be required.  
Available to people over 18 in the UK only. SEAT Finance.

## Gap insurance

**Every detail taken care of**

In the event of your car being stolen, and not recovered, or written off in an accident there could be a difference between what you paid for it or what is outstanding on your finance and the motor insurance company's settlement.

We think you deserve another new SEAT if yours is no longer with us. Our gap insurance (also known as guaranteed asset protection) helps to bridge the payment gap between the settlement amount from your motor insurer and the original purchase price of your car or the outstanding finance. So the additional worry of finding the money to purchase a replacement SEAT could be taken away.

So SEAT Insurance provides you with a range of cover to choose from:

- Return to invoice price
- Outstanding finance
- Return to invoice price and outstanding finance
- Lease charges

## How does gap insurance work?

If, for example, you purchased a vehicle costing £15,000 and it is written off after 15 months, your motor insurer may only pay out the current market value which might be £11,000. To replace your SEAT with another model worth £15,000 you will need to find £4,000. However, with our return to invoice price cover we could pay you the missing £4,000.

With our outstanding finance product the gap insurance payment would only be sufficient to cover any charges (up to a maximum of £10,000) that would need to be paid in order to fully settle your finance agreement.

## Return to invoice price

## Outstanding finance

Speak with your local Dealer to arrange gap insurance which meets your needs.

# Make your SEAT a member of the fit club

You want your car to be in great condition. Fixed-cost maintenance keeps everything running smoothly and helps you avoid unforeseen bills.

It is a simple budget plan for your car's servicing, maintenance and, if you want, its tyres. Your finances stay healthy too, through fixed scheduled payments.

There are three levels to choose from:

Service  
Only

Service  
and  
Maintenance

Service,  
Maintenance  
and Tyres

# FIXED-COST MAINTENANCE

A fully stamped service book can make your SEAT even more attractive to potential buyers.

Your servicing can be tailored to suit your individual motoring requirements — anything between 5,000 miles and 40,000 miles per annum (not exceeding 120,000 miles in total) — so you're only paying for what you need. To make it even more convenient your staged payments can be by direct debit, or you can pay for the entire plan with a one-off payment or add to your finance agreement.

Relax, knowing that experts from the SEAT dealer network are caring for your car. Naturally only genuine approved parts are used by the highly skilled technicians. Looking after your car has never been so simple.

## Breakdown assistance

Cover your SEAT with breakdown assistance, recovery and onward travel.

From new, SEAT supply SEAT Assistance cover for the first two years on all cars (subject to terms and conditions). This cover is automatically extended by SEAT Finance for the remaining term of your fixed-cost maintenance contract when you choose the Service and Maintenance, or Service, Maintenance and Tyres plan.
