Our SEAT video servicing tool puts you in control of any work recommended to be carried out on your car. If, during your service, one of our SEAT trained technicians identifies an issue with your car, we'll send an email or text with a link to your personalised video report for you to view online. You can then make an informed decision about the work we recommend.

How it works

Step 1. A SEAT trained technician will carry out a service or health check on your car, any work required will be captured on film for your attention.

Step 2. We'll email or text you a link to a personalised video report for you to view online.

Step 3. We'll let you know what needs doing and you can simply approve the job there and then.

Spread the cost.

We're aware that car maintenance can sometimes cause problems with your monthly budgeting. By allowing you to spread the cost evenly with small monthly payments, our fixed price Service Plans smooth out any bumps in the road ahead.

Not only do these plans mean your SEAT servicing is already budgeted for, you can also be confident that your car is being looked after by SEAT specialists who know your car inside-out.

A Service Plan can start at any point in the service cycle and will free you from paying an up-front deposit. In addition, If you ever decide to sell your car, you can complete the payments and transfer the plan to the new owner, which means you'll be able to command a higher price for your car. You can even choose any SEAT Retailer from our nationwide network.
